Scattered thunderstorms affected the Miami Valley and portions of southwest Ohio during the afternoon. One to two inches of rain fell across this area, causing several roads to flood. Additional thunderstorms developed into a mesoscale convective complex during the evening and moved southeast across these same areas. Another one to two inches fell across much of southwest Ohio, with numerous roads becoming flooded and impassible. Many streams and creeks rose out of their banks. A portion of the roof of the Elder Beerman Store in the Middletown Mall collapsed due to the weight of the water on the roof.
